

LOCAL, SPECIALIST AND DIRECT

WHO WE ARE

A local, specialist and direct farm insurer, part of international financial services provider Achmea Group.

OUR PURPOSE

Keeping Farmers Farming.

OUR VISION

Protecting and enhancing a sustainable future for agricultural communities.

WHERE WE ARE

Through our large regional footprint, our employees are located across Australia and they play an important part in keeping farmers farming.

It all started with a glass jar

Back in 1811, a group of Dutch farmers came together to support each other in the event of haystack fires. They put money into a glass jar to keep farmers farming, and this spirit of solidarity and mutual support laid the foundation for Achmea. From those humble beginnings, Achmea has grown into a global financial services provider, supporting the lives of over 13 million clients worldwide.
